

FARMER-LABOR NOMINEE CLAIMS WESTERN STATES

Christensen Says Election Will
Be Thrown Into House
of Representatives.

By Parley Parker Christensen.

(Copyright 1920 by the United Press.)
SPOKANE, Wash., Oct. 28.—The
real issue in the present campaign is
"shall we have democracy in indus-
try?" or shall we continue to drift in
the direction that the Cummin-
sion bill and the Kansas Industrial
Court plan to have us go.
Industry in America must either be
autocratic or democratic. At the
present time we see it growing more
and more autocratic. The Farmer-
Labor Party demands that it be
democratized.
In accomplishing the democratiza-
tion of industry our program or method
is to give the workers, artisans and
technicians an increasing share in the
responsibilities and management of in-
dustry; this to be done, at the princ-

ple to be developed, in the of
actual experience in operation, this
principle and purpose is set forward
in the platform on which the Farmer-
Labor Party entered the present cam-
paign.
We have not been able to get either
Senator Harding or Gov. Cox to sign
a single word or statement on this
fundamental issue. They have
maneuvered forward with their shadow
boxing contest over the League of
Nations.
I have found that our program
is heartily resolved and endorsed by
those of the voters we can reach, and
if our mission through the press or
otherwise reaches the people we will
go over the top. As to results, while
I am not sufficiently experienced as
a politician to make predictions of
kind, I feel quite certain at this time
that we will carry enough Western
States to throw the election of the
next President into the House of
Representatives, and then it depends

on how many Congressmen we have
whether Christensen will be elected.
There are indications that we will
get several members of Congress,
notably in New York, in the Hart-
ford District of Connecticut, in Penn-
sylvania, Indiana, Illinois and through
speeches not in their platforms have

been. In the States of Washington
and North Dakota we will go over
the top, sweeping everything from
Governor to dog catcher.
The outstanding feature of this cam-
paign to me is that neither in their
platforms nor in their speeches have

the candidates of either major party
said a word or given an outline of any
plan of reconstruction of industry.
I enter the final days of this cam-
paign convinced of the integrity and
the native strength of our cause and
hopeful of success.

She Was Very, Very Good"

And then Mother would take Polly shopping, to buy winter clothes
for school and play. Sometimes Bobby would come too (if he had been
good at the same time). Or perhaps they would bring Tiny Kit, who
always loved to come though she was only three years old.
When Mother asked "Where shall we go?" there was always a scream
of joy, which, interpreted, meant—

A Statement of Clothing Facts

Last season we came before you with a sweeping discount
of 20% on the price of every garment in our store, determined
to bring down the high cost of wearing apparel and give our
patrons the best clothing values to be found in New York
City. The response was instant and overwhelming, con-
firming the soundness of our judgment.

To meet the growing demand for the still further reduction
of the high cost of clothing, we are now offering another
sweeping discount of 20% on all clothing in our establish-
ment, bringing the prices down to what they should be next
season.

Despite the fact that many manufacturers persist in hold-
ing to their high scale of wholesale prices, at the present
moment we are countermarching several orders recently
placed at rates which would compel us to charge exorbitant
prices not warranted by prevailing market conditions, which
we refuse to do. THE MANUFACTURERS HAVE
THREATENED SUIT, but we are determined to maintain
our reputation for fair prices for the best values obtainable
and meet the situation by giving the public the benefit of
the very latest in style and fabric at a sweeping price reduc-
tion that will prove a revelation in the clothing trade.
